No. Jute(Mktg)/10/2004

Dated:28-03-2018

To  
All Jute Mills

Sub: Maintenance in the level of inspection of Jute Bags.

Sir,

It has been observed that the overall quantity offered for inspection in the last week of every month generally appears to be in the level of around 10,000 bales or more per day. On the contrary it has also been observed that in the beginning of a month, the level of inspection moves down sharply.

Jute Mills are, therefore, requested to ensure that the level of inspection does not fall in the beginning of the month and maintain a level of around 10,000 bales or more throughout the month of April.

Yours faithfully,

(Dipankar Mahto)

Deputy Jute Commissioner
