4TH Floor, Sector-I, Salt Lake City, Kolkata – 700064

No. Jute (Mktg)/11/2004-V

Dated: 08-10-2018

To
All Jute Mills

Sub: Unsatisfactory supply of B-Twill jute bags.

Sir,

It has been observed that a number of jute mills have failed to supply B-Twill jute bags not only within the Delivery Period as specified in the PCSO but also within thirty (30) days from the date of PCSO. Ministry of Food, GOI has recently assessed the overall supply position and expressed serious concern as the procurement operations of foodgrains have already commenced from first week of October, 2018 in different states. In order to ensure uninterrupted procurement operations and packing of foodgrains, Ministry of Food has proposed for granting relaxation for use of HDPE/PP.

Under the above circumstances, all jute mills are directed to engage their sacking manufacturing capacity to the maximum extent possible so that the entire allocated quantity is executed at the earliest. This office will review the supply position shortly and if any backlog quantity is found against any PCSO which is older than 30 days, appropriate penal action will be taken which may include cancellation of the unsupplied quantity and debarment of PCSOs in the month of November'18 onwards.

Yours faithfully,

(Sujit Pal)
